TELEGRAM TO THE NEW YORK HERALD.

The following important special despatch relative to Spanish affairs has been received from our correspondent at Biarritz. Department of Basses-Pyrénées, France, by way of

Brankers June 21, 1873. Marshal Serrano, Generals Martos, Caballero de Rodas and Gaminde, with Señor Sagasta and others, prominent leaders in Spanish politics, residing at this place and in the immediate neighborhood, are just now endeavoring to organize a moderate party of Spaniards with the view to secure possession of the government of Spain.

MODE OF OPERATION AND PROGRAMME FOR ACTION.

They have made overtures to Carlists in the field, and also to the commanders and soldiers of regiments of the line now engaged in the Spanish republican service, intending, if they can secure the aid of a sufficient army force, to march on Madrid. .

PROSPECTS OF THE REACTIONISTS.

Propositions of this nature were made just lately to Generals Ollo, Dorregaray, Lissaraga and other leading Carlists, who all refused to have any relation with Serrano or his partisans; but it is believed just at present that many of the regular regiments in the Spanish army are now in the interest of the conspiracy. The leaders, as a party, pretend to favor the formation of a unitarian and conservative Re-

ARRIVAL OF THE GEORGE CROMWELL. The Disabling of the Steamer-A Voyage of Forty-five Days from New York to

the Bahamas and Back. Last night, shortly before midnight, the glad news of the safe arrival of the steamer George Cromwell was flashed up the bay from Sandy Hook, and the vessel which a few weeks ago thought to have come to an untimely end was safely moored at her pier. The George Cromweil left this port for New Orleans on the 17th of May, and up to the 9th of this month nothing had been heard of her after passing Sanoy Hook. The greatest alarm was manifested by those who had friends on board, and everybody but the owners believed that a disaster had occurred. On the date just mentioned a despatch was received from Key West stating that the vessel had arrived at Abdco, in the Bahamas, with broken machinery, having connecting rod and cylinder broken on the 21st of May, being four days after she left this port. As soon 'as these tidings were received the agents of the line in this city telegraphed to New Orleans that their steamer, the George Washington, should leave that port with all despatch and tow her disabled sister ship back to New York, which she has now done. From the date of her departure until her arrival she is now forty-five days out. The steamer Washington, which should have left this port yesterday, is to be despatched to-morrow, when she will take the cargo of the George Cromwell to New Orleans. The following are the names of the Cromwell's passengers:—First cabin—Mr. Fullerlove, Mrs. J. W. Dockendorn Mrs. S. Dale. Second cabin—Joseph Gillick, Robert Willis, Jose Foolina and Hannan Scott, colored. CHICAGO June 21, 1873. During the past week a number of bins of No. 2 corn, amounting, in the aggregate, to about one hundred and fifteen thousand bushels, in two elevators here, have been posted on 'Change, as heated. The natural effect on the corn market has been to create an unsettled feeling and to depress prices. Yesterday No. 2 corn sold at twenty-seven cents per bushel, which is the lowest point touched in this market for twelve years. There has been considerable feeling aroused among operators in corn, and charges have been made on 'Change and in the city press that the corn posical as heated was fraudulently posted for the benefit of certain parties and to the detriment of the trade. A resolution was introduced on 'Change to-day, which under the rules, hos over until Monday, providing for the appointment of a committee to investigate these charges, and, if they find that there is good ground for them, to instruct the attorney of the Board to ascertain if there are any grounds for legal proceedings against the parties making these postings. been to create an unsettled feeling and to depress
